Education Philosophy

The education philosophy of Nagoya Institute of Technology is to “Aim toward achieving the happiness of humankind and welfare of the global community going into the future while nurturing the human talent to support this goal based on three guiding principles: *Monozukuri* (Innovation), *Hitozukuri* (Education), and *Miraizukuri* (Contribution).”

Each and every graduate of this school is expected to be active as a pragmatic engineering elite who possesses the skills to create revolutionary academic innovations and technologies in the real world by working together with various people in various fields throughout the global community and striving toward a sustainable society of the future.

Admissions Policy (Policy on the Admission of New Students)

Graduate School of Engineering, Doctoral Degree Program

To nurture human resources according to our education philosophy, students who satisfy the following are admitted widely from within Japan and around the world.

Students who study in the Doctoral Degree Program at our university have the abilities of a master’s degree graduate, specialist knowledge of engineering, a sense of mission to technical innovation, and a good understanding of the philosophy of our university and have the desire to fulfill that mission of engineering.

- (1) People who have graduated with a master’s degree or who have equivalent abilities
- (2) Successful applicants will possess the proficiency to read and write academic papers in English and other languages and be able to have discussions with researchers from diverse backgrounds
- (3) Successful applicants will have advanced specialist knowledge and skills in their field with extensive knowledge in engineering and have the ability to utilize the knowledge to make appropriate approaches to solve problems.
- (4) People who have a strong desire to be the leaders of engineering in the future

Basic Policy for Admission Selection

Selection of entrants will be conducted through an oral examination, an interview, and submitted documents. In the oral examination, candidates will be asked to give a presentation on their master’s thesis in order to examine their specialized expertise and English ability. In addition, the research motivation, aptitude, and personality will be assessed in an interview.

Graduate School of Engineering Doctor's Course

Admissions Guide for Enrollment April 2024

The Graduate School of Engineering of Nagoya Institute of Technology (NITech) invites prospective students for the Doctor's Course as follows:

1. Department and the Number of Places

Department	Number of students to be admitted	
	The first application	The second application
Department of Engineering	37	A few

Note 1: The Department of Engineering covers a wide range of engineering in education and research and is classified into five specialized fields. It approaches to global, industrial, and regional challenges from individual field of specialization or interdisciplinary and transdisciplinary by providing education and research environment.

Five fields : 『Life Science and Applied Chemistry』, 『Physical Science and Engineering』, 『Electrical and Mechanical Engineering』, 『Computer Science』, and 『Architecture, Civil Engineering and Industrial Management Engineering』

Note 2: Of the following application requirements, which are set separately from this application, you cannot apply concurrently with the majors you are recruiting at the same time.

- For Enrollment April 2024 Cooperative Major in Nanopharmaceutical Sciences Doctor's Course Admissions Guide for First and Second Applications
- For Enrollment April 2024 Graduate School of Engineering Nagoya Institute of Technology and The University of Wollongong Joint Degree Doctoral Program in Informatics Admissions Guide for First and Second Applications

2. Eligibility Requirements

Applicants should satisfy any of the following:

- (1) Applicants who hold a master's degree or a professional degree (a professional degree stipulated in Article 5-2 of the Degree Regulations (Ordinance of the Ministry of Education, Science and Culture No. 9 of 1953) based on the provision of Article 104-1 of the School Education Act; the same shall apply hereinafter) or who are expected to acquire either of the said degrees by March 31, 2024
- (2) Applicants who received or are expected to receive an academic degree equivalent to a master's degree or a professional degree in a country/region other than Japan by March 31, 2024
- (3) Applicants who received or are expected to receive an academic degree equivalent to a master's degree or a professional degree after studying, in Japan, specific subjects of a correspondence course provided by an academic institution based in a country/region other than Japan by March 31, 2024
- (4) Applicants who received or are expected to receive an academic degree equivalent to a master's degree or a professional degree by completing, in Japan, a graduate course provided by an academic institution that is positioned in the school education system in a country/region other than Japan as an institution providing graduate courses equivalent to those provided in the said country/region and that is designated separately by the Minister of Education, Culture, Sports, Science and Technology of Japan by March 31, 2024
- (5) Applicants who received or are expected to receive by March 31, 2024, an academic degree equivalent to a master's degree by completing a course of the United Nations University, which is stipulated in Article 1-2 of

the Act on Special Measures Incidental to Enforcement of the “Agreement between the United Nations and Japan regarding the Headquarters of the United Nations University” (Act No. 72 of 1976) and which was established on the basis of the United Nations General Assembly resolution of December 11, 1972

- (6) Applicants who completed a course of study provided by an academic institution based in a country/region other than Japan, an academic institution specified in Item (4) in this section, or the United Nations University; who passed a review equivalent to the examination stipulated in Article 16-2 of the Standards for Establishment of Graduate Schools; and who are recognized to have an academic ability equivalent to, or higher than, that of a master’s degree holder
- (7) Applicants designated by the Minister of Education, Culture, Sports, Science and Technology:
 - ① Applicants who have been engaged in research at a university, a research laboratory, or a similar institution for at least 2 years after graduating from a university and are recognized by Graduate School of Engineering of NITech as having a scholastic ability equal to or higher than that of a person with a master’s degree based on the results of their research
 - ② Applicants who have been engaged in research at a university, a research laboratory, or a similar institution for at least 2 years after completing 16 years of school education in a country other than Japan or while in Japan by studying the subjects through a distance learning program run by the said country and are recognized by Graduate School of Engineering of NITech as having a scholastic ability equal to or higher than that of a person with a master’s degree based on the results of their research
- (8) Applicants who are recognized by the Graduate School of Engineering of NITech as having a scholastic ability equal to or higher than that of a person with a master’s degree as a result of individual evaluation of eligibility for admission and will reach 24 years old by March 31, 2024

Note 1: For an application made together with the Eligibility for Application (6), please refer to the Application with the Eligibility for Application (6) on page 13.

Note 2: For an application made together with the Eligibility for Application (7), please refer to the Application with the Eligibility for Application (7) on page 14.

Note 3: For an application made together with the Eligibility for Application (8), please refer to the Application with the Eligibility for Application (8) on page 15.

3. Application Period

(1) The first application

(A) Internet application registration period

From 9:00 a.m. on Tuesday, July 11, to 3:00 p.m. on Friday, July 21, 2023

(B) Application document acceptance period

From on Tuesday, July 18, to 4:00 p.m. on Friday, July 21, 2023

If bringing them with you, reception of the documents is from 9:00 a.m. to 4:00 p.m. of those days.

If mailing them, they must be received no later than 4:00 p.m. on Friday, July 21, 2023.

(2) The second application

(A) Internet application registration period

From 9:00 a.m. on Tuesday, January 9, to 3:00 p.m. on Friday, January 19, 2024

(B) Application document acceptance period

From on Tuesday, January 16, to Friday, January 19, 2024

If bringing them with you, reception of the documents is from 9:00 a.m. to 4:00 p.m.

If mailing them, they must be received no later than 4:00 p.m. on Friday, January 19, 2024.

Note 1: After Internet application registration, submit documents by bringing them with you or mailing them. Please check details in “4. Application Procedure.”

Note 2: Before applying, please consult with the faculty member in NITech whom you would like to have as your academic adviser for your research proposal and the application for admission.

For international student applicants, please submit a curriculum vitae downloaded from the URL below to the faculty member whom you wish to supervise by Friday, June 30, 2023, for the first recruitment and by Wednesday, December 27, 2023, for the second recruitment.

URL : <https://www.nitech.ac.jp/examination/in/request.html>

4. Application Procedure

For those who wish to enroll, make careful confirmation of steps [1]–[4] and complete the necessary procedures.

[1] Procedure of the Internet Application Registration

(1) Confirmation of the entrance examination system	Download “Admissions Guide” from the NITech website and check the requirements for application and the application period to the major you wish to enter into.
(2) Internet Application Registration	From a computer, etc. connected to the Internet, follow the instructions on the screen, and enter the content to be registered.
(3) Confirmation of application information	Check the registered application information. The information can be printed out for confirmation.
(4) Selection of payment method	Select the method of payment for the examination fee. <ul style="list-style-type: none"> • Credit card • Convenience store payment • Bank ATM (Pay-easy) • Online banking <u>People who are expected to complete their master’s degree program at NITech in March 2024 are not required to pay the examination fee.</u>
(5) Payment of examination fee	Through the payment method you selected, pay the registration and examination fee (30,000 yen) and bank transfer fee (990 yen.) Note: If you wish to have your test results disclosed, you need to pay an additional 800 yen.
(6) Printing of registered application information	Print out the Application Checking Sheet and other documents.
(7) Submission of application documents	Submit the printed documents with the registered application information, from (6) etc. to Nagoya Institute of Technology as written on page 6 of “[3] Application Documents” to complete application.

Note 1: Applications are not considered complete, until you submit related physical documents written on page 6 of “[3] Application Documents” to the Admission Division.

Note 2: In case of the following actions during the application information registration, or you have not continued on to the next page within 30 min, please note that registration must be started over again.

- You have closed the browser before completing the application information’s registration.
- You clicked the “Back” button in the browser to return to the previous screen.

Note 3: Check the Internet application registration site below regarding details on examination fee payment methods, frequently asked questions, etc.

Note 4: If a student has large-scale natural disaster during the 1 year prior to the application, he or she may be exempt from paying the examination fee by applying the exemption. A student may be exempt if he or she has the natural disaster inside the designated area of National Disaster Relief Act (災害救助法) and had his or her house completely, seriously, or partially destroyed or his or her household finances supporters have passed away or have missed. (The national disaster is limited to those that occurred in Japan.)

For details, please check the NITech website (<https://www.nitech.ac.jp/examination/sokuhou/>) and submit the necessary documents.

Internet Application Registration Site

NI Tech English website > Prospective Students > Internet Application Registration Site

Note 5: The following are the recommended system requirements for computer and mobile device when registering your application information over the Internet.

(1) Recommended System Requirements for Computer

Browser

Windows	Macintosh
Google Chrome Microsoft Edge	Safari Google Chrome (Mac OS 10.6 or later)

PDF Reading Software

Windows	Macintosh
Adobe Acrobat Reader DC	Adobe Acrobat Reader DC

(2) Recommended System Requirements for Mobile Device

* Although the following are recommended system requirements, some functions may not work depending on the environment of use. In such case, please use a computer instead.

OS

Android	iOS
Android 10.X.X or later Android Chrome	iOS 14.X.X or later Safari

[2] Registration of Application Information over the Internet and Payment of the Examination Fee

- (1) Registration of application information over the Internet and a payment of the examination fee are required.
The process of registration application information over the Internet is as stated in the separate “Internet Application Registration Process Guide” file.
- (2) Items to be prepared before beginning the registration of application information
 - a. Statement of purpose and other documents
In addition to the documents created through the registration system for the application information, submission of the statement of purpose and other documents as stated in the “Other Necessary Documents” section of “[3] Application Documents” must be done within the application period. Please have them prepared so as not to be late.
 - b. Applicant’s facial photo data
Have the data of a photograph prepared clearly showing the full face, head, and shoulders, without any hat, and taken within 3 months of the application. It is registered into the system together with the other information.
 - c. E-mail address
An e-mail address is required. Use of a smartphone, cellular phone, or free e-mail service address is okay. (The e-mail address designated will receive notification e-mails such as those regarding completion of application information registration.)
 - d. Printer and printer paper
A printer able to make prints in A4 size (in either monochrome or color) is required. Normal printer paper may be used (for printing the registered application information).
- (3) Cases when the Internet is unavailable

If an Internet environment is not available for application registration at your home, or school or university enrolled in, please inquire through the information listed in “17. Contact Information” on page 12.

Note: The application procedure is complete upon registering the information for application over the Internet and submitting the documents written on page 6 of “[3] Application Documents.” Please note that if the necessary documents are not submitted by the application period listed in “3. Application Period” on page 3, the application will be considered incomplete (registered data invalid) and you will not be able to take the examination.

[3] Application Documents

After registering the application information in [2] of page 5 over the Internet, compile the following documents, and submit them to the NITech Admission Division by the prescribed date. Before applying, please consult with the faculty member in NITech whom you would like to have as your academic adviser for your research proposal and the application for admission.

If mailing your application, use a commercial envelope (a rectangular No. 2 envelope with a length of 33 cm and width of 24 cm), stick a mailing label described in (2) of the table below to the front of the envelope, **and mail it as registered express mail.**

Please contact the Admission Division if you are submitting the application documents from outside Japan.

Printed documents of the Internet application registration	(1) Application Checking Sheet (Submission Sheet)	The printed version of the Internet application registration
	(2) Mailing label	Stick the printed mailing label to the envelope used to send the application documents after the registration of application information over the Internet. If bringing the application in person, print out the shipping label, and bring it with you (it does not need to be stuck on the envelope).
Other necessary documents	(3) Statement of purpose	Outline the “Reasons for choosing the Department” and the “Subjects that you wish to study at the Graduate School of Engineering and their description.” Please download and use the statement of purpose form from the NITech website (https://www.nitech.ac.jp/examination/in/request.html).
	(4) Academic transcript of the master’s degree program (Official transcripts are required, copies cannot be accepted.)	Certification for the master’s course you have completed. The certificate needs to be issued by the graduate school you completed. If it is written in a language other than Japanese or English, please submit translation in Japanese or English. Applicants from Chinese educational institutions should refer to the notes below.
	(5) Academic transcript of the undergraduate program (Official transcripts are required, copies cannot be accepted.)	Certification issued by the university you graduated from. If it is written in a language other than Japanese or English, please submit translation in Japanese or English. Applicants from Chinese educational institutions should refer to the notes below.
	(6) Certificate of a master’s degree or professional degree or completion (or expectation) certificate of the master’s degree program	Certification issued by the graduate school you completed (or will complete). If it is written in a language other than Japanese or English, please submit translation in Japanese or English. Applicants from Chinese educational institutions should refer to

Other necessary documents	(Official transcripts are required, copies cannot be accepted.)	the notes below.
	(7) Copy of the master's thesis	Please submit a copy of your master's thesis. If you do not hold a master's degree, please prepare the other document (7) below.
	(8) Summary of Past Research History (the form designated by NITech). (For who do not hold a master's degree)	If you do not hold a master's degree, submit a summary of your research results so far in approximately 1,500 letters. Please download and use the Summary of Past Research History form from the NITech website (https://www.nitech.ac.jp/examination/in/request.html).
	(9) Copy of literary works, academic papers, academic reports, and patents/utility designs	If you correspond to eligibility requirement (7) or (8) and you have such documents, please submit them.
	(10) Copy of certificate of residence or copy of both sides of your residence card	Submit a copy of your certificate of residence (<i>Jumin-hyo</i>) indicating your Status of Residence and Period of Stay or a copy of both sides of your residence card. If you have not been registered, please submit a copy of your passport.
	(11) Declaration of applicable specific categories	All applicants are required to fill out, sign, and submit "Declaration of applicable specific categories" because we have to confirm whether or not you are subject to the "deemed export" controls under the Foreign Exchange and Foreign Trade Act ("FEFTA"). Please download and use the form from the NITech website (https://www.nitech.ac.jp/examination/in/request.html).

Note: The documents submitted for evaluation for eligibility do not need to be resubmitted at the time of application.

<Regarding Certificates of Applicants from Chinese Educational Institutions>

(4) Transcript (graduate school), (5) Transcript (undergraduate), and (6) degree acquisition certificate (completion certificate)

Applicants from Chinese educational institutions are required to follow the procedure whereby CHSI (China Higher-education Information and Student Information; <https://www.chsi.com.cn/>) directly sends your grade certification report (English version), educational background certification report (English version), and degree (master's) certificate (English version) to the Admission Division at Nagoya Institute of Technology (nit.nyushi@adm.nitech.ac.jp) by the deadline for application.

Only certification reports (4), (5), and (6) submitted by CHSI will be accepted.

Applicants who fail to follow the procedures and whose documents are not submitted by the deadline will not be able to take the examination. Be sure to allow plenty of time for submission of the application.

If the applicant has not graduated from the relevant institution at the time of application, the applicant should submit a transcript of the current academic year for (4) transcript (graduate school) and a certificate issued by the institution showing that the applicant is expected to graduate for (6) degree acquisition certificate (completion certificate).

[4] Important Points

- (1) The certificate in a language other than Japanese or English must be accompanied by a translation in either Japanese or English.
- (2) Incomplete application documents cannot be accepted.
- (3) Changes made after Internet application registration are not acknowledged. However, if your address, phone number, etc. have changed, please contact the Admission Division in “17. Contact Information” on page 12.
- (4) Once you have submitted admission application documents, you cannot make changes to the contents, and the documents you submit will not be returned.
- (5) Examination fees already paid are not reimbursed for any reason other than the following cases:
 - A. The fee was paid, but the application documents were not mailed.
 - * The application process will not be completed by only Internet application registration. It will be completed after mailing in the application documents within the application period.
 - B. The fee was paid, but due to a mistake or mistakes in the application documents, application was not accepted.
 - C. The fee was mistakenly paid twice.
- (6) Any false information in the submitted documents will cause cancellation of one’s admission even after you have been admitted.
- (7) The personal information used for the selection will be dealt with under the Act on the Protection of Personal Information Held by Independent Administrative Agencies:
 - a) For the personal information used for the selection, NITech will use them for investigation and research for future selections. For the investigation and research, NITech may entrust some processes of the affairs to contractors with which NITech has made a nondisclosure agreement. In this case, NITech provides the personal information to the contractors within the scope of the entrusted affairs.
 - b) Regarding the personal information of successful applicants, such as the name and the address and so on, NITech will use them for sending the advance guide about textbook purchasing and rental housing and so on. About the affairs, NITech may entrust them to contractors with which NITech has made a nondisclosure agreement. In this case, NITech provides the personal information to the contractors within the scope of the entrusted affairs.
 - c) Regarding the personal information used for the selections, NITech will use them for the academic affairs, including register management, and affairs related to study support and student support. To carry out the affairs, NITech may entrust some processes of them to contractors with which NITech has made a nondisclosure agreement. In this case, NITech provides the personal information to the contractors within the scope of the entrusted affairs.

5. Download and Printing of the Examination Admission Ticket

The examination admission ticket can be downloaded or printed from the dates below.

Download and print the examination admission ticket from the Internet application registration site, and bring it with you on the day of the examination.

[The first application] From Wednesday, July 26, 2023

[The second application] From Monday, January 22, 2024

6. Preliminary Consultation for Applicants with Disabilities

Special treatment is available for students with disabilities. Please contact the Admission Division prior to the application if you have a disability stipulated in Article 22-3 of the Order for Enforcement of the School Education Act and other disability or others and therefore need special care to enable you to take the admission examination and attend graduate school programs.

- (1) Date and consultation

[The first application] By Friday, June 16, 2023

[The second application] By Thursday, December 14, 2023

By the date above, you should inform the Admission Division regarding details of consultation, either in

writing, or by phone, or other means. The Admission Division may have a meeting on campus, if necessary, with you or a staff member of your school who can provide the necessary information on your behalf.

(2) Contact information

Refer to Section “17. Contact information” on page 12.

7. Visa (Coming to Japan for the Entrance Examination)

Depending on your nationality, applicants who intend to enter Japan to take the entrance examination must obtain a visa. For details, please contact your local Japanese Embassy or Consulate.

NITech cannot be your “Inviter” or “Guarantor” when applicants apply for “short-term visa.” Please prepare the necessary documents and apply for the visa on your own

For further information, please refer to the Ministry of Foreign Affairs website:

https://www.mofa.go.jp/j_info/visit/visa/index.html

8. Selection Process

Applicants will be selected based on a comprehensive assessment of the results of the interview, submitted materials, and academic records.

(1) Evaluations

Selection will be conducted by each specific field which academic advisers in the separate file “List of Advisers” belongs to, and applicants will be examined on the materials submitted and by interviews that include the following items:

① Oral examination on the materials

Applicants will be required to give a presentation on materials submitted (Document (7), (8), or (9) listed in the table 4 [3] on page 6) and answer questions about their research activities and their major field. In addition, applicants for the Cooperative Major in Nanopharmaceutical Sciences are required to take oral examinations in a foreign language and answer questions regarding their knowledge of the specific area of discipline (Division). Details will be informed to each applicant after your application documents are accepted.

② Personal interview

Motivation and personality

(2) Date

[The first application] Wednesday, August 23, 2023

[The second application] Wednesday, January 24, 2024

9. Examination Site

The Nagoya Institute of Technology, Nagoya City, Aichi Prefecture

(However, you may be allowed to take a test remotely using a communication device.)

Detailed information will be informed to each applicant after your application documents are accepted.

10. Announcement of Successful Applicants and Admission Procedure

(1) An announcement of successful applicants will be made by posting the examinee numbers of successful applicants on the NITech website (<https://www.nitech.ac.jp/>) on the following dates, and a letter of acceptance will be sent to each successful applicant.

[The first application] At 10:00 a.m., Friday, September 8, 2023

[The second application] At 1:00 p.m., Thursday ~~Wednesday~~, February 8~~7~~, 2024

Results will not be available on the phone.

(2) Successful applicants (or their proxies) should carry out the admission procedure on the date shown below.

If the admission procedure is not carried out by the prescribed deadline, the applicant will be considered to have declined admission. Note that the admission procedure can also be conducted by mail in accordance with the Admission Procedure Guide that will be sent in the beginning of February 2024. The documents required for admission procedure will be enclosed in the envelope with the Admission Procedure Guide.

Date and time of admission procedure	Location
Thursday, March 7, 2024, 9:00 a.m. to 4:00 p.m.	Nagoya Institute of Technology

11. Necessary Fees for Admission Procedure

Admission fee	282,000 yen (estimated)	
Tuition fee	Annual amount: 535,800 yen (estimated)	First semester: 267,900 yen Second semester: 267,900 yen

Note 1: Those who are expected to complete the master's degree program at NITech in March 2024 are not required to pay the admission fee.

Note 2: If the admission fee and/or the tuition fee are revised, they will be applied from the time of the revision.

Note 3: Students who would like to pay the annual fees in one payment can pay them when paying the tuition for the first semester.

Note 4: Students who fail to pay the tuition fee (for the first semester) during the admission process must pay it between Monday, April 1, and Tuesday, April 30, 2024.

Note 5: The paid admission and tuition fees will not be returned in principle. However, if those who have completed the admission procedure decline to enroll by Friday, March 29, 2024, the relevant tuition will be returned upon request.

Note 6: Admission fee exemption, admission fee payment deferment, and tuition fee exemption might be available upon application.

12. Public Information

The following information on the entrance examination for the doctor's course at the Graduate School of Engineering in 2024 will be available.

(1) Application figures

The numbers of applicants, entrance examinees, successful applicants, and enrolled students will be posted on the NITech website and available at the Admission Division.

(2) Examination results

① Upon request from examinees, the following items will be disclosed:

Comprehensive evaluation (A, B, or C)

Examination results will not be disclosed to those who have been removed from the list of examinees due to absence from the admission screening.

② How to request the examination results

a) Way of request

Applicants who wish to have their test scores disclosed must select "Yes" in the "Request for Disclosure of Test Scores" field when registering for the online application. Please make sure to select "Yes" in the "Request for Disclosure of Examination Scores" box when you register your application online. Individual requests for disclosure by e-mail or telephone after application will not be accepted.

If you choose "Yes," a separate disclosure request fee of 800 yen is required per application. Please pay it together with the application fee.

b) Notification

[The first application]

The application can be viewed from Monday, October 2, 2023, to Thursday, November 30, 2023.

[The second application]

The application can be viewed from Monday, April 1, 2024, to Friday, April 26, 2024.

Note 1: To view the application, you will need your “Name,” “Examination Number,” and “Reference Number” from your Web-based application registration. Since there is a long period of time between the application and the disclosure period, please be careful to keep track of your examination number and reference number.

Note 2: In the unlikely event that you do not know your reference number, you can receive a notification to your registered e-mail address. Please be sure to register an e-mail address that you will not change until the time of disclosure.

Note 3: We will not respond to inquiries such as “I don’t know my examination number” or “I don’t know my reference number and cannot use my registered e-mail address.”

c) How to browse

Please go to the Admissions page of the University’s website and go to the Personal Results Disclosure System.

Enter your “Name,” “Exam Number,” and “Reference Number” when you registered your application online.

13. Academic Advisers

To complete the application, please refer to the separate file “A List of Advisers” for the necessary information to fill in primary academic advisers.

NItech provides a research guidance system with two advisers: a primary academic adviser and a sub-academic adviser. Please discuss with your primary academic adviser first, and if you have decided your sub-academic adviser, please specify his/her name.

~~If you are a working adult and wish to have one of the academic adviser listed in the table below as your primary academic adviser, please consult with the Admission Division listed in “17. Contact Information” on page 12 in addition to consulting with your preferred primary academic adviser.~~

Field	Academic advisers
Life Science and Applied Chemistry	KAKIMOTO Kenichi, KAWASAKI Shinji, HANEDA Masaaki, HAYAKAWA Tomokatsu
Physical Science and Engineering	OGATA Shuji, HAYASHI Koichi
Electrical and Mechanical Engineering	KATO Masashi, ANZAI Daisuke, SEKI Kenta

14. Approval of Course Completion and Conferment of Academic Degree

An academic degree will be conferred as indicated in the box below, in principle, to a student who has attended the doctor’s course for no fewer than 3 years, who has acquired at least ten credits in the said program, who has received the necessary instructions and advice in his/her research, and who has passed reviews of their doctoral dissertation and the final examination.

Degree title	Name of the area of specialization
Doctor	Engineering
	Philosophy

15. Scholarships

Upon request, students may apply to receive scholarships from the Japan Student Services Organization and private organizations.

16. Security Export Control

Nagoya Institute of Technology has established the “Nagoya Institute of Technology Security Export Control regulations” in accordance with the “Foreign Exchange and Foreign Trade Act” and rigorously screens potential international students on the basis of these regulations.

In November 2021, in accordance with the clarification of the scope of control for “deemed exports” under the Foreign Exchange and Foreign Trade Act (“FEFTA”), all applicants who are to study at Nagoya Institute of Technology will be required to submit a “Declaration of applicable specific categories” based on the “Flowchart for determining applicable specific categories.” In addition, some students may be required to submit a “pledge” at the time of admission procedures.

Please be aware that applicants who fall under any of the conditions set out in said regulations may have their education or research activities restricted.

Eligibility Requirements (6)

1. “People who have passed an alternative test that is equivalent to the examination and review stipulated in Article 16-2 of the Standards for Establishment of Graduate Schools and who are recognized to have a research capacity equivalent to, or higher than, that of a master’s degree holder” as stipulated in the Eligibility for Application (6) shall be deemed to have passed a test equivalent to a Qualifying Examination.

The “Qualifying Examination” comprises the examination and review described in the following items:

- ① An examination to confirm that the student has a high level of specialized knowledge and abilities regarding his/her area of specialization, as well as a basic grounding in areas pertaining to the said area of specialization
 - ② A review to confirm that the student has the necessary abilities to proceed with research activities for a doctoral dissertation on his/her own initiative
2. Those who apply based on the Eligibility Requirements (6) shall also be subject to a review of their eligibility to apply for the entrance examination conducted by Graduate School of Engineering of NITech.
 3. To apply for the review described in the previous paragraph (2), submit to the Admission Division the documents specified below, as well as documents (4) and (8) listed in the table “4 [3] Application documents” on page 6 no later than the following due date:

[The first application] By 4:00 p.m., Monday, May 15, 2023

[The second application] By 4:00 p.m., Friday, November 10, 2023

- “Application for the Entrance Eligibility”
- “Statement of Purpose”
- Documents certifying the applicant has passed a review equivalent to the Qualifying Examination (“Examination”)
- Documents explaining the qualifying standards of the Examination
- Documents showing the correlation between success in the Examination and the requirements for the master’s degree granted in the relevant university
- Documents showing the correlation between the handling of the program for doctorate in the relevant university and the students who have transferred to the said university after receiving a master’s degree at another university

Note 1: Please contact Admission Division for application for the entrance eligibility mentioned above.

Note 2: Please download and use the statement of purpose form stated above from the NITech website (<https://www.nitech.ac.jp/examination/in/request.html>).

4. Applicants will be informed of the examination result by the dates:

[The first application] Monday, June 26, 2023

[The second application] Friday, January 5, 2024

5. At the time the application eligibility is approved, details regarding application procedures are given.
6. Application documents that reach NITech after the deadline cannot be accepted.

Eligibility Requirements (7)

1. “People designated by the Minister of Education, Culture, Sports, Science and Technology” described in the Eligibility (7) must meet both ① and ③ or both ② and ③ of the following requirements:

- ① People who have been engaged in research at a university, a research laboratory, or a similar institution for at least 2 years after graduating from a university
- ② People who have been engaged in research at a university, a research laboratory, or a similar institution for at least 2 years after completing 16 years of school education in a country other than Japan or while in Japan by studying the subjects through a distance learning program run by the said country
- ③ People who have achieved satisfactory results that are recognized to be equal to or higher than a master’s thesis through books, academic papers, academic lectures, academic reports, patents/utility designs, etc.

2. In the case of application under Eligibility Requirements (7), the evaluation for the Eligibility will be conducted by the Graduate School of Engineering, NITech.

3. Applicants subjected to the evaluation described above in paragraph 2 must submit to the Admission Division the following documents in addition to (8) and (9) described in “4 [3] Application documents” on page 6 by the date below:

[The first application] By 4:00 p.m., Monday, May 15, 2023

[The second application] By 4:00 p.m., Friday, November 10, 2023

- Application for the Entrance Eligibility
- Statement of Purpose
- Certificate of academic record from their undergraduate program
- Graduation certificate of the undergraduate program

Note 1: Please contact Admission Division for application for the entrance eligibility mentioned above.

Note 2: Please download and use the statement of purpose form stated above from the NITech website (<https://www.nitech.ac.jp/examination/in/request.html>).

4. The applicants will be informed of the result of the evaluation by the following dates:

[The first application] Monday, June 26, 2023

[The second application] Friday, January 5, 2024

5. At the time the application eligibility is approved, details regarding application procedures are given.

6. Documents for selection that reach NITech after the deadline cannot be accepted.

Eligibility Requirements (8)

1 “People who are recognized by the Graduate School of Engineering of NITech as having a scholastic ability equal to or higher than that of a person with a master’s degree as a result of individual review of eligibility for admission and who will be 24 years old by March 31, 2024” described in the Eligibility Requirements (8) must meet either of the following requirements:

- (1) People who have work experience in the scientific and technological field for at least 2 years after graduating from a university and have achieved satisfactory results that are recognized to be equal to or higher than a master’s thesis through books, academic papers, academic lectures, academic reports, patents, etc.
- (2) People who have graduated from a 2-year college, a college of technology, a vocational school, or a school in a miscellaneous category or completed a program run by other educational institutions and have individually recognized educational background, work experience, international activity experience, etc.

2 In the case of application under Eligibility Requirements (8), evaluation for Eligibility will be conducted by the Graduate School of Engineering, NITech.

3 Applicants under conditions described above must submit to the Admission Division the following documents in addition to (8) and (9) described in “4 [3] Application documents” on page 6 by the dates below:

[The first application] By 4:00 p.m., Monday, May 15, 2023

[The second application] By 4:00 p.m., Friday, November 10, 2023

Applicants under conditions 1-①

- Application for the Entrance Eligibility
- Statement of Purpose
- Certificate of academic record from their undergraduate program
- Graduation certificate of their undergraduate program

Note 1: Please contact Admission Division for application for the entrance eligibility mentioned above.

Note 2: Please download and use the statement of purpose form stated above from the NITech website (<https://www.nitech.ac.jp/examination/in/request.html>).

Applicants under conditions 1-② above

- Application for the Entrance Eligibility
- Statement of Purpose
- Certificate of academic record from their most recently attended educational institution
- Graduation or completion certificate from the most recent educational institution
- Evidential materials of the school curriculum, such as the school and educational program handbook

Note 1: Please contact Admission Division for application for the entrance eligibility mentioned above.

Note 2: Please download and use the statement of purpose form stated above from the NITech website (<https://www.nitech.ac.jp/examination/in/request.html>).

4. The applicants will be informed of the result of the evaluation by the following dates:

[The first application] Monday, June 26, 2023

[The second application] Friday, January 5, 2024

5. At the time the application eligibility is approved, details regarding application procedures are given.

6. Documents for selection that reach NITech after the deadline cannot be accepted.

Diploma Policy (Policy on Doctoral Degree Certification and Awarding Degrees)

Graduate School of Engineering, Doctoral Degree Program

The graduate school Doctoral Degree Program produces engineers and researchers who have the following highly advanced specialist knowledge and skills and the ability to lead innovation according to our education philosophy.

The doctoral degree is awarded to students who have satisfied the requirements for the doctoral degree as defined by the Regulation of Nagoya Institute of Technology Graduate School.

- (1) The skills to understand the problems facing Japan and the global community from a technological perspective and ability to create a vision of the future form of the industrial community
- (2) The ability to create new values with advanced knowledge and skills in specialized fields and also with multidisciplinary engineering knowledge
- (3) The ability to find appropriate approaches to tasks and issues and conduct ingenious research through communication with engineers and researchers of various backgrounds

Curriculum Policy (Policy on the Formulation and Execution of the Education Program)

Graduate School of Engineering, Doctoral Degree Program

This education program has been formulated from the following perspectives for nurturing human resources according to our education philosophy.

The graduate school Doctoral Degree Program nurtures human resources who will acquire highly advanced specialist knowledge while working on research and who will create the society of the future by building on the skills of the master's degree, specialist knowledge of engineering, and a sense of mission to technological innovation.

- (1) Acquire the skills to understand the problems facing Japan and the global community from a technological perspective and ability to create a vision of the future form of the industrial community.

For this, students learn details such as the responsibilities that technology should bear in the field of research ethics and observe problems in specialist fields in depth through seminars in specialist fields.

- (2) Develop insight and wide-ranging interest in industrial technology and in-depth specialist knowledge in one or more fields.

For this, a wide range of interest and insight are cultivated in students by pursuing academic problems in specialist fields in depth while at the same time looking at leading-edge practical research both inside and outside Japan.

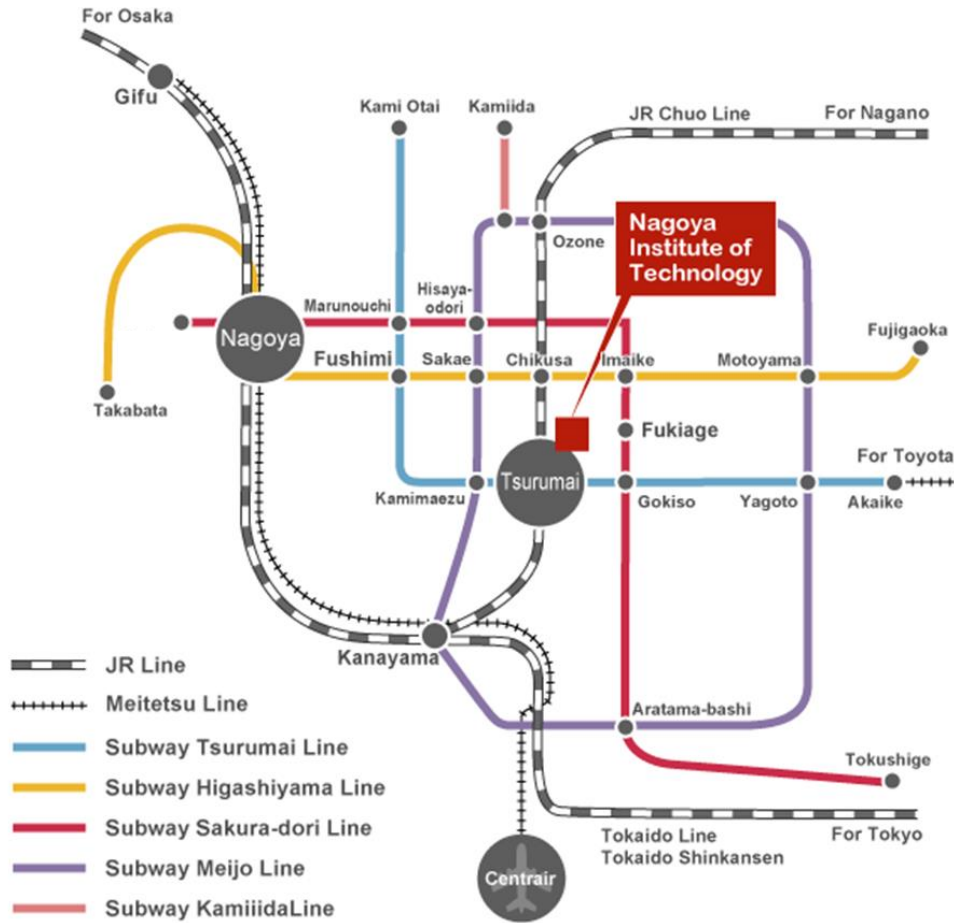

- (3) Develop the ability to lead innovation through high originality and the ability to promote research.

For this, the ability to lead technical innovation is cultivated in students such as by working on creative and beneficial research and participating in discussions with researchers in a wide variety of fields including people working at companies.

Based upon the objectives of each subject, students' achievement will be impartially and rigorously evaluated, assessing the degree to which students have acquired the knowledge and abilities stated in the diploma policy.

As for the doctoral thesis of research achievements, we specify the evaluation standards and methods, upon which reviews and final examinations will be conducted.
